THE BEST SELLING FALSE EYELASHES GLUE IN JAPAN.

Super strong holding brush-on glue for false eyelashes which is made of medical-use adhesive tape glue.

Perfectly waterproof. Strong resistance against tears, sweat, and humid. Last all day long.

PATENTED IN JAPAN

Ingredients: Acrylates/Ethylhexyl Acrylate Copolymer, Aqua

Size: 5ml

MADE IN KOREA

*Avoid low temperature (below 0 degree celsius) and heat.

WHAT'S SO SPECIAL ABOUT "D-UP EYELASHES FIXER EX"?

1 STRONG RESISTANCE AGAINST
TEARS, SWEAT, AND HUMID.

2 LAST MORE THAN 24HRS.

3 MADE OF SAFE MEDICAL-TAPE
GLUE & GENTLE ON THE SKIN.

4 EASY TO USE BRUSH-ON
GLUE TYPE.

HOW TO USE

1 Apply adhesive along the base of the false eyelashes using the brush attached on the cap.

2 Wait for 30-60 seconds until the adhesive's color changes from bluish/greenish white to clear. Make sure to attach the false eyelashes on your eyelid after the adhesive is dried and tacky.

* If you wear false eyelashes before the adhesive is dry, false eyelashes will not stick to your eyelid and easily come off.

3 Apply the false eyelashes right above the base of your natural lashes.

4 Attach from the center part of the lashes, then adjust both ends.

5 Press false eyelashes and your original eyelashes together gently to integrate and get the natural look.
